## LUDWIG COENEN: "Bit Brassier EP"

### TRACKLISTING:

- A1. Bit Brassier (45 RPM)
- B1. White Russian (33 1/3 RPM)
- B2. Drift and Drop (33 1/3 RPM)

Ludwig Coenen has quite recently rocketed his name to the map of modern and innovative electronic dance music of today by making his name as a producer by releasing material on quite a few digital labels. Senator Recordings is proudly presenting his first solo vinyl release in form of a compact 3-track EP featuring straight 4 to the floor jackin' tracks varying from pulsating instrumental house grooves with strong electronic edge to them (*Bit Brassier*), up to anthem alike crowd pleaser hymns (*White Russian*).

Ludwig Coenen not only being a "Kool Kat" on the block, shows his very humble approach and cool as ice attitude by presenting these three tracks on his solo Senator debut. Fine mixture of sample heavy & crazy vocals, a notorious Chicago Jack Trax attitude (*Drift and Drop*), put down and arranged perfectly to fit today's very demanding electronic club culture standards does the trick like a headless chicken.

All these tracks are made for the floor, in other words, made purely for dancing. Rather dry compressed but driving beats combined with sweaty grooves work like a charm and the whole mixture goes fluidly and deliciously down like the very best vintage Barolo harvested at the peak time and offering altogether more testosterone than those blue little pills. Everlasting love!

Another quality production brought to you by Senator Recordings.
